- **Overnite energy prices are higher. We will call it a bounce and nothing more at this point.**
- **Tomorrow's report calls for builds in products as a result of refineries coming back on line. Imports are also expected to pick up.**
- **October RBOB gasoline and heating oil go off the Board today. November becomes the prompt contract at the close of trade today.**
- **Outlook: Markets wait to hear what's next in terms of a bail out. Rallies are likely to be sold instead of dips being bought.**
