Section 4 First Aid Measures

Eyes: Flush eyes with running water for at least 15 minutes. If redness, burning, blurred vision or irritation persists, get medical attention.

Skin: Flush skin with water, wash with soap and water. If irritation occurs, get medical attention. Remove contaminated clothing. Do not reuse clothing until cleaned.

Ingestion: Do NOT induce vomiting and obtain medical attention. Have victim rinse mouth out with water.

Inhalation: Remove victim to fresh air. Get medical attention if symptoms occur.

Section 5 Fire Fighting Measures

Flammable Properties:

Base Oil Flash point: 277°C (ASTM D92) Flammable limits in air: N/A

Extinguishing media: CO₂, dry chemical, foam

Special firefighting measure:

Procedures for an oil fire should be utilized. Use self-contained breathing apparatus. Use foam or dry chemical to extinguish fire. Water may be used only to keep surrounding containers cool. Firefighters should wear proper protective equipment and self-contained breathing apparatus with full face piece operated in positive pressure mode.

Section 6 Accidental Release Measures

- Eliminate ignition sources and ventilate area.
- Absorb spillage with inert absorbent material.
- Contain spill and keep from entering waterways or sewers. Treat contaminated absorbent same as spilled product.

Section 7 Handling and Storage

Precautions for safe handling. Observe Good Industrial Practices.

- Advise EPA/state agency if required.
- Use proper personal protective equipment for clean-up.
